HAK ASHIQ M

Full-Stack Developer

Chennai, Tamil Nadu | +91 8056211285 | thakashiq@gmail.com | linkedin.com/in/hak-ashiq-763699375 | github.com/Hakashiq

Summary

Final-year B.Tech Information Technology student with hands-on experience building full-stack applications using Java, Spring Boot, and React. Strong foundation in data structures, algorithms, and object-oriented programming, with practical experience in REST API design, relational database modeling, JWT-based authentication, and frontend integration. Seeking a Full-Stack Developer role.

Technical Skills

Languages: Java, SQL
Frameworks & Libraries: Spring Boot, Spring Security, Spring Data JPA, React, FastAPI, JDBC
APIs & Auth: REST API Design, JWT Authentication, LLM API Integration
Databases & Caching: MySQL, Redis
Tools: Git, GitHub, Maven
Core Subjects: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Java Collections

Projects

InterviewIQ - AI-Assisted Mock Interview Platform

Java | *Spring Boot* | *React* | *MySQL* | *Redis* | *FastAPI* | *LLM API*
Live Demo: interviewiq-frontend-inwa.onrender.com

- Developed a full-stack AI-assisted mock interview platform enabling resume analysis, skill assessment, adaptive interviews, and personalized learning recommendations.
- Designed and implemented REST APIs using Spring Boot and MySQL, structuring the application into controller, service, and repository layers for maintainability.
- Integrated FastAPI and LLM APIs for resume scoring, skill extraction, interview question generation, and answer evaluation, using Redis caching to reduce repeated database queries and response latency.

Key Skills: Java, Spring Boot, REST API Design, MySQL, Redis Caching, FastAPI, LLM API Integration, React

RentTech - Peer-to-Peer Equipment Rental Marketplace

Java | *Spring Boot* | *Spring Security* | *React* | *MySQL* | *JWT Authentication*
Live Demo: rent-tech-rental-marketplace.vercel.app

- Built a full-stack peer-to-peer equipment rental platform with booking, availability, and conflict-detection workflows.
- Implemented secure booking logic with conflict detection and business rule validation, preventing overlapping bookings and keeping equipment availability data consistent.
- Designed REST APIs with Spring Data JPA, integrated a React frontend, and used database indexing to speed up equipment search and filtering.

Key Skills: Java, Spring Boot, Spring Security, Spring Data JPA, JWT Authentication, REST API Design, MySQL, Database Indexing, React

Hospital Management System

Java | *JDBC* | *MySQL* | *OOP* | *Collections*

- Developed a console-based Hospital Management System to manage patient records, appointments, and hospital operations.
- Implemented CRUD operations for patient and appointment records using JDBC and MySQL, with relational integrity enforced through foreign key constraints, tested against 100+ sample records.
- Applied OOP principles and Java Collections (ArrayList, HashMap) for in-memory data handling during CRUD operations.

Key Skills: Java, JDBC, MySQL, OOP, Java Collections (ArrayList, HashMap), CRUD Operations

Education

B.Tech in Information Technology (2023 - 2027)
Sri Shakthi Institute of Engineering and Technology, Coimbatore, Tamil Nadu - CGPA: 7.12 (up to Semester VI)

Higher Secondary Certificate - HSC (2023)
Dhanish Matriculation Higher Secondary School, Chennai, Tamil Nadu - 79%

Certifications

- Generative AI Leader Certificate - Google Skills

Achievements

- Solved 250+ LeetCode problems across arrays, linked lists, trees, graphs, dynamic programming, and greedy algorithms
- Selected for Smart India Hackathon (SIH) - Intercollege Round
- Winner, Anna University Inter-Zonal Kho Kho Tournament (2023-2024)
